

Ngurawola (T, AC, O'G, 'RLS', SAW, AIAS), *Ngurawala*
(LH, GB)

Practically the same as *Bundamara* according to an informant of Hercus'. Breen mentions R.H. Mathews reference to the *Mullinchi* tribe of Coopers Creek which may refer to *Ngurawala*. Which means there is still no verifiable linguistic information on this language. There is a suggestion that the word means 'empty camp' (*ngura* 'camp', *wala* 'empty') and so is not a dialect name at all.

- 75.2a Garlali Eulo west to Thargomindah D10 (AIAS D30)
& Bulloo River upstream
to south of Orient, Clyde
and Currawinga (AC)

Garlali and dialects Breen calls the Bulloo River language. There is still a little left to record. Both Holmer & Sutton recorded from informants at Cherbourg in 1971. Breen also recorded briefly from informants at Cunnamulla and Cherbourg (1972). With Schebeck and Wurm's earlier material there is now quite a quantity recorded but nothing yet published.

- 75.2b Bidjara Bulloo Downs, Bulloo (AIAS L43)
Lake, Grey Range

Bidjara (AC, AIAS), *Bitjara* (T, SAW, O'G, 'RLS', AIAS)

Breen lists the only source of early information F.A. Sullivan's lists in 'AR' (No. 53, Vol. 11, pp. 42-3), erroneously labelled *Mamwura* in 'RLS' p. 278. The classification here is based on a cognate count with *Garlali* of 86%.

[75.2c Dhiraila See 75.1c*.]

[75.2d Wanggumara See 75.1d*.]

[75.2e Ngurawola See 75.1g*.]

- 75.2c* Mingabari ? At Bulloo Downs (GB)
(9Lr.)
Minkabari (GB), *Mingabari* (AIAS)
