Wurm queries O'Grady's classification of this dialect with the Miyan Wiradjuric Subgroup. Holmer classifies as being related to *Waga-Waga* and *Wuli-Wuli*.

'man' : *me-an* (Barlow); *garoon, booa* (C:169)

95. b. *Than Subgroup (Eastern)*

95.1a* (94.2a) Djakunda E17 (AIAS E27)

No information except that Wurm still lists as a dialect of *Gurang-Gurang* (both listed by O'Grady in the previous subgroup).

95.1b* (94.2b) Gurang-Gurang Upper Burnett River (See also 'RLS') E37 (AIAS E32)

Gurang-Gurang (AC, SAW, GB), *Gurenggureng* (C/S), *Korenggoreng* (O'G, 'RLS'), *Koreng-Koreng* (R), *Goreng-Goreng, Guring-Guring* (NH)

Holmer has managed to salvage enough for a description of this language. Breen has also collected a little.

95.2a* (95.1a) Dalla Sandgate - Nambour area E13 (AIAS E25)

Dalla (AC, AIAS, SAW, O'G, 'RLS'), *Dala* (SAW alt. sp.)

Presumed extinct. Wurm retains classification here.

95.2b* (95.1b) Badjala Fraser or Great Sandy Island E2 (AIAS E30)

Badjala (AC, AIAS, SAW), *Batjala* (NH, O'G, 'RLS'), *Badyala* (NH, PS, Hall - name of people); *Dipple* (dialect name - Hall)

Hall collected a little and also Holmer and he is including early manuscript material also.

'man' : *guri* (Hall); *than* (C:164d)
