

90. a. Gumbainggar Subgroup*

90a. Gumbaynggir See 'RLS' E36 (AIAS E7)

Gumbainggar (AC, orig. AIAS, SAW, WGH, NH),
Kumbainggar (O'G, 'RLS'), *Cambainggarie* (Meston),
Coombagoree ('S or M'), *Gumbaynggir* (Eades, AIAS)

Hoddinott says there is evidence there were at least two dialects, a northern and a southern one and that *Ba:nbai* is either one of these or a third one. Eades is salvaging; she attests the final vowel is definitely /i/.

'man' : 'man' : *nigar* (RHM, 1903); *dja:njbar* (Smythe, 1948);
ni:gar (WGH, 1969) (Eades agrees *ni:gar* is general term for 'man' ; *dja:nbar* means 'husband'.)

90b Banbai ? Round Guyra, Ben Lomand, E5 (AIAS E8)
Wollomombi & Kooka-
bookra (RHM)

Ba:nbai (WGH), *Banbai* (AC, AIAS, SAW, O'G, 'RLS')

Wurm (1970) continues to list as a dialect but Hoddinott seems to think it was almost identical to *Gumbaynggir* (Mathews 1903 and Smythe's 1948 word lists are almost identical for the two dialects).

91. b. Vegir Subgroup*

(Vegiric Group originally)
