

- 4Kr. Waladjangari K15 (AIAS K24)  
See No. 46.3d\*.
- 5Kr. Bemba Deleted  
Vaszolyi says it is a *Gunin* place name *Bembar* denoting area round King Edward River via Barton River up to King George River which used to be the horde land or tribal territory of the *Gunin* people. Capell says it is definitely not a language name but a compass point, (*bembar*).
- 6Kr. Mariung K14 (AIAS K38)  
No information.
- 7Kr. Wulu Deleted. (AIAS K43)  
Probably mistaken for *wula*: which means 'language' in Eastern *Ngarinjin*; (*wulan wungarinjin* means 'Ngarinjin language') (AC)
- 8Kr. Jeidji K8 (AIAS K32)  
Means 'talk, speech' (SIL)  
Is part of *wunambal*, 48.1a\*
- 9Kr. Manungu K8 (AIAS K46)  
Means 'hill country' (SIL). It is a local division of the Forrest River. Capell has some material which shows slight dialectal changes.
- 10Kr. Walar K8 (AIAS K45)  
Part of *Ngarinjin*; see 46.3c\*.
- 11Kr. Wembria K8 (AIAS K31)  
(deleted)  
Possibly a territorial name. (SIL)

- 48.1a\* Wunambal\* North of Prince Regent K21 (AIAS K22)  
 River, along Roe River,  
 Moran River and Mitchell  
 River eastward as far as  
 King Edward River and  
 inland to Mt. Bradshaw and  
 Mt. Hann (V)

*Wunambal* (AC, AIAS, SAW, O'G, 'RLS', Love), *Unambal*  
 (Hernandez); *Jeidji* (8Kr. 'RLS', means "talk, speech")

Vaszolyi is making a major study; he has a word list of 4,000 words with illustrations embedded in sentences and taped, an outline phonology and grammar, syntax and a sizeable corpus of myths and narratives. The language is still viable with at least 200 speakers, most of whom speak *Wunambal* as a second language; those who speak it as a first language seem much smaller. It has been stated that most of the 500+ people from the recently closed Forrest River Mission speak *Wunambal* (though Capell queries this information). About 20 elderly people at Kalumburu Mission identify themselves as "proper" *Wunambal* from the Prince Regent - Mitchell River area. (V)  
 There are at least 8 - 10 speakers at the Mowanjum Mission (1973-4 figures) and well over a score of *Wurora* and *Ngarinjin* people speak it as a second language.

- 48.1b\* Gunin \* Lower reaches and E. of K7 (AIAS K41)  
 (48.3b) King Edward R.; lower  
 Drysdale R. including  
 estuary; Barton R. up to  
 King George's R. (this  
 area is termed in  
*Wunambal*, *bember*, 'Gwini  
 country' - see note under  
 5Kr. *Bemba*); also shores  
 of Napier Broome Bay (V)

*Gunan* (AC), *Guna* (?), *Gunin* (SIL, Lucich, AIAS, V),  
*Kunan* (Taylor), *Pela* (Craig) *Gwini* (AC, APE, AIAS,  
 O'G, 'RLS'), *Kwini* (Love), *Kwiini* (Taylor), *Kuini*  
 (Perez), *Cuini* (?)

Vaszolyi describes *Gunin* as a language/dialect closely related to *Wunambal*, *Miwa* and *Gambera* (these four probably are dialects of the same language).
