7B. RESIDUE LANGUAGES LAKES AREA (AREA L)

- 1Lr. *Mamwura* Breen suggests the name *Mamwura* listed by Beckett is a mis-hearing of *Mambangura*, a name given him by one of his informants. Capell gives the location north of Nerialco (that is, Naryilco), which is approximately the Nockatunga area where another informant of Breen's placed *Ngandangura*, 75.lb. Hence it is probably an alternate name for it.
- 2Lr. *Mundabara* No information except Capell's listing, L33.

- 9Lr. *Minkabari* No new information.
- 10Lr. *Balpamadramadra* Breen further reports that this may be the same language as that shown on a map by Howitt marked *Dirityangura*, (A word list in 'AR' by Howitt, No. 49, Vol 2., pp.30-1, which Breen once thought may have been this language, is now known to be *Diyari*, 74.la.)
