7B. RESIDUE LANGUAGES LAKES AREA (AREA L)

1Lr. Mambwara Breen suggests the name Mambwara listed by Beckett is a mis-hearing of Mambangura, a name given him by one of his informants. Capell gives the location north of Nerialco (that is, Naryilco), which is approximately the Nockatunga area where another informant of Breen's placed Ngandangura, 75.1b. Hence it is probably an alternate name for it.

9Lr. Minkabari No new information.
10Lr. Balpamadramadra Breen further reports that this may be the same language as that shown on a map by Howitt marked Dirityangura, (A word list in 'AR' by Howitt, No. 49, Vol 2., pp.30-1, which Breen once thought may have been this language, is now known to be Diyaric, 74.1a.)
