

Walsh has collected some vocabulary of *Wulna* and also a little remains of *Manidja* tentatively classified with this group.

35a*. Wulna **** Head of Mary River and N100 (AIAS N32)
(35; west to Pine Creek (AC)
20Nr.)

Wulna (Parkhouse, Basedow, AIAS ?), *Wulnar* (Parkhouse), *Wolna* (Bradshaw), *Woolnah* (Wildey), *Woolna* (Schmidt), *Wuna* (O'G, 'RLS'), *Wulwangga* (AC), *Woolwanga* (Stanner, Basset Smith), *Woolwonga* (Schmidt), *Wulwulam* (AC, orig. AIAS), possibly also *Djerimanga* (20Nr. 'RLS')

(Note: *Wulna* has tentatively been chosen as the best name for this language to be called since it appears to have been that used by the earliest investigators; *Wulwulam* used by AC and *Wuna* bu O'G are not found elsewhere).

Walsh has collected some vocabulary. Osborne reported (1972) one elderly speaker left at Koolpinyah.

'man' : *gumu* (Osborne); *nungolingin* (Walsh)

35b*. Manidja^{*} ?**** Mary River (Osborne)
(17Nr.?)

Limilngan (Walsh); probably same as *Buneidja* (17Nr.); *Manitja* (Osborne); *Manidja* (AIAS) - introduced term (Walsh)

First mentioned by Osborne, 1972 and tentatively classified here because of its location. Osborne reported 2 speakers at Bagot and one who is sometimes at Berrimah. Informants say their name for the language is *Limilngan* while *Manidja* is an introduced term. *Manidja* may be the same as *Buneidja*, 17Nr. since *Buneidja* is supposed to be in the same area and has *Minnitji* as one of its alternate names as does *Limilngan*. (Walsh). Walsh has collected vocabulary and grammar (1973)

'aboriginal man' : *mulugan* (Osborne); *bagiyan* (Walsh)

35A*. XVIII A*. GUNGARAGANYAN FAMILY*

A new classification based on Tryon's field work. Lexical overlap with other Daly River languages ranges from only 3.2% (with *Marengar*) to 15.3% (with *Bunga-Bunga*). Hence Tryon classifies this language as a family separate to the Daly Family.

35A*. Gungaraganj ** Midway between Daly N38 (AIAS N14)
(9Nr.) and Finnis Rivers
(Stanner)

Gungaragan (AC, 9Nr. 'RLS', orig. AIAS), *Gungaraganj* (AIAS), *Kungarakan* (T, AC, Stanner), *Kungarakay* (Stanner), *Kungarakany* (DT, SAW); *Kangarakanj* (Walsh)

A full study to expand Tryon's material needed if speakers can be found (it is almost if not quite extinct).

'man' : *kigirak* (DT)

35B*. XVIIIIB*. WARRAIAN FAMILY*

Warrai has even lower cognate percentages with surrounding languages than does *Gungaraganj* (1.9% with *Marengar* to 10.6% with *Wadjiginj*, and only 12.8% with *Gungaraganj*). Hence Tryon classifies *Warrai* as a separate family.

35B*. Warrai *** Lower Adelaide River N94 (AIAS N25)
(11Nr.) (AC)

Awarai (AC), *Awar:ai* (T), *Awarra* (Parkhouse), *Awarrai* (Basedow), *Warai* (Dahl), *Warrai* (DT, SAW, 11Nr., 'RLS', WGH, Spencer, AIAS)

No major study yet produced and the need is urgent since it is almost if not quite extinct.

'man' : *nang* (DT)

36-40. XIX. DALY FAMILY (O'G: WOGATJAN)

- 55Nr. *Meritjamui* Stanner's vocabulary unidentified as far as is known.
- 56Nr. *Ilkar* See under *Yiwadja*, 2
- 57Nr. *Batymal* See under *Wadjiginj*, 38.1a*
- 58Nr. *Warat* See 40b*
- 59Nr. *Ngarndji* See 30.2*
- 60Nr. *Tangural* See 37.3*
- 61Nr. *Marengar* See 37.3*
- 62Nr. *Tyemeri* See 36a*
- 63Nr. *Maridyerbin* See 37.2b*
- 64Nr. *Kumerakainj* Possibly same as *Kungarakany* (*Gungaraganj*), 9Nr. See 35A*.
- 65Nr. *Nganygit* See 37.2d*
- 66Nr. *Manda* See 38.3b*
- 67Nr. *Ere* See 8b*
- 68Nr. *Wandangbag* Nothing further reported
- 69Nr. *MareAmmu* See 37.2d*

2B.

RESIDUE KIMBERLEY LANGUAGES (AREA K)

- 1Kr. Walgi K19 (AIAS K11)
No information apart from Capell's listing.
- 2Kr. Wandjira K3 (AIAS K21)
See No. 59.3b*.
- 3Kr. Andidja / Andidjara Derby Broome area K8 (AIAS K23)
Andidja ('RLS'), *Andidjara*, *Andidjari*, *Wandidja*, *Wulandidja* (all SIL)
Mentioned by SIL (1970) who state it is the same as *Wumbulgari* - see 48.1a*.
