

Walsh has collected some vocabulary of *Wulna* and also a little remains of *Manidja* tentatively classified with this group.

35a*. Wulna **** Head of Mary River and N100 (AIAS N32)
(35; west to Pine Creek (AC)
20Nr.)

Wulna (Parkhouse, Basedow, AIAS ?), *Wulnar* (Parkhouse), *Wolna* (Bradshaw), *Woolnah* (Wildey), *Woolna* (Schmidt), *Wuna* (O'G, 'RLS'), *Wulwanga* (AC), *Woolwanga* (Stanner, Basset Smith), *Woolwonga* (Schmidt), *Wulwulam* (AC, orig. AIAS), possibly also *Djerimanga* (20Nr. 'RLS')

(Note: *Wulna* has tentatively been chosen as the best name for this language to be called since it appears to have been that used by the earliest investigators; *Wulwulam* used by AC and *Wuna* bu O'G are not found elsewhere).

Walsh has collected some vocabulary. Osborne reported (1972) one elderly speaker left at Koolpinyah.

'man' : *gumu* (Osborne); *nungolingin* (Walsh)

35b*. Manidja* ?**** Mary River (Osborne)
(17Nr.?)

Limilngan (Walsh); probably same as *Buneidja* (17Nr.); *Manitja* (Osborne); *Manidja* (AIAS) - introduced term (Walsh)

First mentioned by Osborne, 1972 and tentatively classified here because of its location. Osborne reported 2 speakers at Bagot and one who is sometimes at Berrimah. Informants say their name for the language is *Limilngan* while *Manidja* is an introduced term. *Manidja* may be the same as *Buneidja*, 17Nr. since *Buneidja* is supposed to be in the same area and has *Minnitji* as one of its alternate names as does *Limilngan*. (Walsh). Walsh has collected vocabulary and grammar (1973)

'aboriginal man' : *mulugan* (Osborne); *bagiyan* (Walsh)

35A*. XVIIIIA*. GUNGARAGANYAN FAMILY*
