

114.7b*Yi?an

Yi?an (CK), *Iyenja* (BAS), *Mangka* (Hall), *Gugu Mangk* (CK)

Kilham has established that *Yi?an*, alternatively called *Mangk* is a separate dialect to *Wik Iiyan*.

114.8* Baganha * Headwaters of Holroyd Y62 (AIAS Y96)
(36Yr.) & Edward Rivers (BAS)
(54Yr.)

Bakanha (BAS, SAW), *Jan* ('RLS' 54Yr., AC, AIAS), *Kokojan* ('LS') - a *Gugu Bera* name - BAS), *Aw Ayan* (*Kunjen* name - BAS), *Ogo Yan* (PS), *Pakanh* (CK), *Pakn* (Hall), *Baganu* (Y19, AIAS Y64, 'RLS' 36Yr.)

Recently investigated by Sommer who has continued to collect material in this dialect. He classifies it as an aberrant *wik* dialect. Though the location is different to that of McConnel and West (theirs being upper Edward River), *Bagana* (AC Y19, AIAS Y64, 'RLS' (36Yr.) 36 Yr.) probably refers to *Bakanha*. There are speakers at Edward River using it as a first language and an estimated 10 others who understand it.

'man' : *pi:m / pama* (Hall)

114.9* Ayabadhu *** Near Coen, south to Y5 (AIAS Y60)
(31Yr.) upper Morehead River,
east to Musgrave, west
to Coleman & Holroyd
Rivers

Ayabadhu (BAS, AIAS), *Ajabadha* (AC, orig. AIAS, 'RLS' 31 Yr., LMW), *Ayapathu* (LMW), *Aiyabotho* (R? - listed in 'LS'), *Abadja*, *Aiabadu*, *Aiyaboto*, *Ajibyrdy*, *Apatya*, *Badja*, *Koko Aiebadu* (all listed in 'RLS' as alternate names)

Sommer (1972) established this dialect as being close to *Bakanha*. McConnel considered *Munkan* being more closely associated with *Ayabadha* than with *Bakanha*. A possible half dozen partial speakers remain at Coen. It is little documented in tape and notes apart from West's unpublished word list texts and tales (1964).

'man' : *me* (PS)

Uwthalingan (LMW)

West recorded Bora and Pu'ypu songs and 8 short texts on a variety of subjects. In 1964 West listed 5 men as last surviving informants but said then the language was no longer spoken because it was replaced by *Gudjandja*, the Mission lingua franca, a very close dialect.

The dialect uses *uuthalingana* for 'look' but the *Umbila kanthaanya* for 'eat'. Some informants say the dialect name *Kuku Iyu* given Thompson refers to any language other than their own.

115.1d* Guugu Yani * Massey Creek

Kuuku Yani (Thompson)

On the basis of Thompson's newest information (April 1975 - see comments in introduction to this section), it is assumed that this is probably another *Umbila* dialect.

115.1e* ?Yintjinggu ?? Mouth of Stewart River
(Thompson map)

Sommer very tentatively suggests *yintjinggu* may be part of coastal North-eastern Paman, or alternatively it perhaps should be classified with *Umbindhamu*.

115.2a* Gaandju * Between upper reaches Y47 (AIAS Y44)
(106.2) of Archer & Coen Rivers
(BS map); Moreton P.O.
to Coen (Thompson)

Kantanyu-speaking; *kanidji* bush-men (Thomson); *Kanitji* inlanders (Thompson), *Gandju* (AC, AIAS), *Kantju* (SAW, 'LS'), *Kandju* ('RLS', O'G, T), *Kaantju* (K), *Kanytyu* (LMW)

There are a few speakers remaining at Lockhart River and Sutton found some as far south as Townsville and Palm Island. West recorded a word list, some songs and myths. Sommer (1972) recorded a word list at Coen of Inland *Gandju*.

'man' : *bam:a* (T)
