

Rigsby has fairly extensive materials for a proposed depth study. Sommer recorded some words and sentences 1972. There are some speakers at Laura and Coen.

117.1b\* Alwangara \* Mid Morehead & Kennedy (AIAS Y71)  
(79Yr.) Rivers (LMW)

Known as 'Kuku Geese' (BAS) or *Mewulwangalkal* 'people who have the goose language' (BR)

*Alwangara* (BAS), ?*Agu* ?*Alwangara* (LMW), *Alwangar* (BAS), *Koko Rarmul* (R, AIAS Y71, 'RLS' Y79Yr.), *Kokorarmool* (R); (Tindale's *Koko Jawa* is mapped by him in this area & may belong here but Wurm has classified with the *yalangic* languages - see 107.5\*)

West recorded 30 medium length texts with partially matching texts in *Olkolo* and fully matching in *Umpila*, (he thought it a dialect of *Gugu Ya?u* and *Umpila*). Rigsby and Sommer have some material collected from the last informant who died in 1973.

117.2\* Aghu Tharnggala \* Upper Hann River Y31 (AIAS Y65)  
(109.2)

Known as *Koko-Kuyu* or 'Koko-Fish' (BAS)

*Aghu Tharnggalai* (BAS), *Aghu Tharngala* (KH - recorded in 'LS' as *Agu-Tarnggele*), *Darnggele* (AC, AIAS), *Aghu Tharnggala* (O'G, 'RLS'); mis-identified by West as *Yuwula*, which was the informant's name; hence *Juwula*, 'RLS' 39Yr., AC Y75, AIAS Y70 now deleted.

Recorded by West & Hale from the last known speaker. It has the same V reflection rule as applies to *Ikaranggal* (q.v.). Sommer says *Tharnggala* (and *Dhayban*) are the only cases he knows where the V reflection rule applies to a (e.g. \*ngayu = yaw) in Central Peninsular languages.

117.3\* Alodja\*

Known as 'Koko-Sugar bag' (BAS)

*Alodja* (BAS), ?*Agu*-?*Alotya* (LMW)
